

Species	Test	Price List (Inc GST)
Bovine	<b>Bulk Worm Egg Count (eggs per gm) (WEC)</b>	\$30.59 each+ Fluke Test \$52.62
	Individual Worm Egg Count	Primary Count \$13.50 2-30 samples \$7.67 31-60 samples \$6.53 61-100 samples \$5.97 >100 samples \$5.40 each with pre-printed or electronic ID labels  >100 samples \$5.93 if no labels
	WECRT	POA
	Larval Cultures	\$45.88 each
	Fluke Testing	\$30.59 each
	Parasite ID (worms/lice)	\$87.80 each
	Hydatid cyst investigation	\$87.80 each
	Coccidia (Detection and speciation)	\$16.02 + WEC fee, \$31.15 without
	Calf Scour Panel Test	\$57.72
Lungworm detection	\$41.35 each	
Ovine	<b>Bulk Worm Egg Count (eggs per gm) (WEC)</b>	\$30.59 each + Fluke Test \$52.62
	Individual Worm Egg Count	Primary Count \$13.50 2-30 samples \$7.67 31-60 samples \$6.53 61-101 samples \$5.97 >100 samples \$5.40 each with pre-printed or electronic ID labels( <i>we can print labels if email us with an ear tag id list</i> )>100 samples \$5.93 if no labels
	Drench Resistance Test	POA
	Fluke Test	\$30.59 each + Bulk WEC \$52.62
	Lungworm detection	\$41.35 each
	Larval Cultures	\$45.88 each
	Parasite ID ( <i>worms/lice</i> ) Cystercircus ID ( <i>Tenuicollis</i> )	\$87.80 each
	Hydatid Cyst investigations	\$64.01 each
Coccidia (Detection and speciation)	\$16.02 each	

Species	Test	Price List (Inc GST)
Equine	<b>Worm Egg Count</b>	\$13.50– 1 <sup>st</sup> horse, \$8.39 subsequent
	Faecal washings (Detection of worms in faeces)	\$41.35 each
	Larval Cultures	\$45.88 each (8 Days)
	Cyathostome ID	\$101.40 each
	Liver Fluke	\$30.59 each
Alpacas/ Camelids/Goats	<b>Bulk Worm Egg Count (WEC)</b>	\$30.59 each
	Individual Worm Egg Count	Same as Ovine/Bovine
	Coccidiosis detection and id	\$16.42 each
	Total worm counts	\$226.60 each (stomach/small Intestine)
	Liver Fluke	\$30.59 each + WEC Test \$52.62
	Lungworm detection	\$41.35 each
Porcine	<b>Bulk Worm Egg Count</b>	\$30.59 each
	<i>Trichuris</i> sp. detection	\$28.89 each
	Worm ID	\$78.44 each
	Skin scrapings (External Parasite ID)	\$62.88 each
Avian	<b>Worm Egg Count</b>	\$13.54 each
	Coccidia detection (qualitative analysis and speciation)	\$19.83 each
	External Parasite ID	\$62.88 each
	Worm ID	\$87.80 each
Canine	<b>Worm Egg Count</b>	\$13.50– 1 <sup>st</sup> Primary, \$8.39 Additional
	Worm ID	\$33.42 each
	Heartworm ( <i>D.immitus</i> detection)	\$33.42 each
Feline	<b>Worm Egg Count</b>	\$13.50– 1 <sup>st</sup> Primary, \$8.39 Additional

Species	Test	Price List (Inc GST)
<b>WildLife: Macropods</b>	Worm Egg Count	\$13.50– 1 <sup>st</sup> Primary, \$8.39 Additional
<b>Avian wildlife</b>		POA
<b>Pasture Larval Count</b>	This gives an estimation of the amount of parasitic larvae ( <i>and the % of each species of worm</i> ) being ingested by stock per kg of pasture. Uses include assisting in allocation of lambing paddocks	\$85.25
<b>Pasture spore counts</b>	Detection of spore levels on pasture. Helpful for determining the risk of facial eczema (photosensitisation) ABLD in cattle. Detecting <i>P. charatum</i> , <i>Fusarium sp.</i> , <i>Alternaria sp.</i>	\$ 40.15
<b>Marine Mammals</b> (whales , seals & dolphins)		POA

**Payment of Fees:**

The Fees can be paid by direct credit, cheque or card.

The Livestock Logic bank account details are located on the statement.
